# Objectives

- 1 Understand Attitudes:**  
 Directly connect with registered voters as representatives of engaged citizens in six key states to understand their values, priorities, experiences and sentiments surrounding the new Clean Energy Plan\*.
- 2 Segment Our Audience:**  
 In understanding where voters in six key states stand, we will determine who among registered voters are our base of supporters, opposition, and persuadable audiences.
- 3 Test the Message:**  
 Conduct message testing to identify the best messaging elements that effectively introduces legislation like the IRA and improves confidence in progress made to expand clean energy.

# Methodology

## Voter Universe

N = 6,733 AZ, GA, MI, NV, PA, and WI Registered Voters

## Methodology

All survey interviews were collected through a mixed methodology of cell/landline live calls and TTW online completes

## Overall Margin of Error

±1.60

*Conducted April 27 to May 9, 2023*

\* In this poll, we use the term "Clean Energy Plan" to refer to the Inflation Reduction Act. We do this for three reasons: (1) No one has heard of the IRA (2) using a broader term allows us to combine the IRA, with the Infrastructure Bill, and other executive actions that have climate/clean energy implications, and (3) our previous research shows that people don't feel like there is a real "plan" to transition the economy to clean energy, so using that term emphasizes that this is all part of a plan for the economy.

# Aggregated Sample Breakdown

	AZ	GA	MI	NV	PA	WI
Total interviews	1,102	1,164	1,051	1,252	1,113	1,051

---

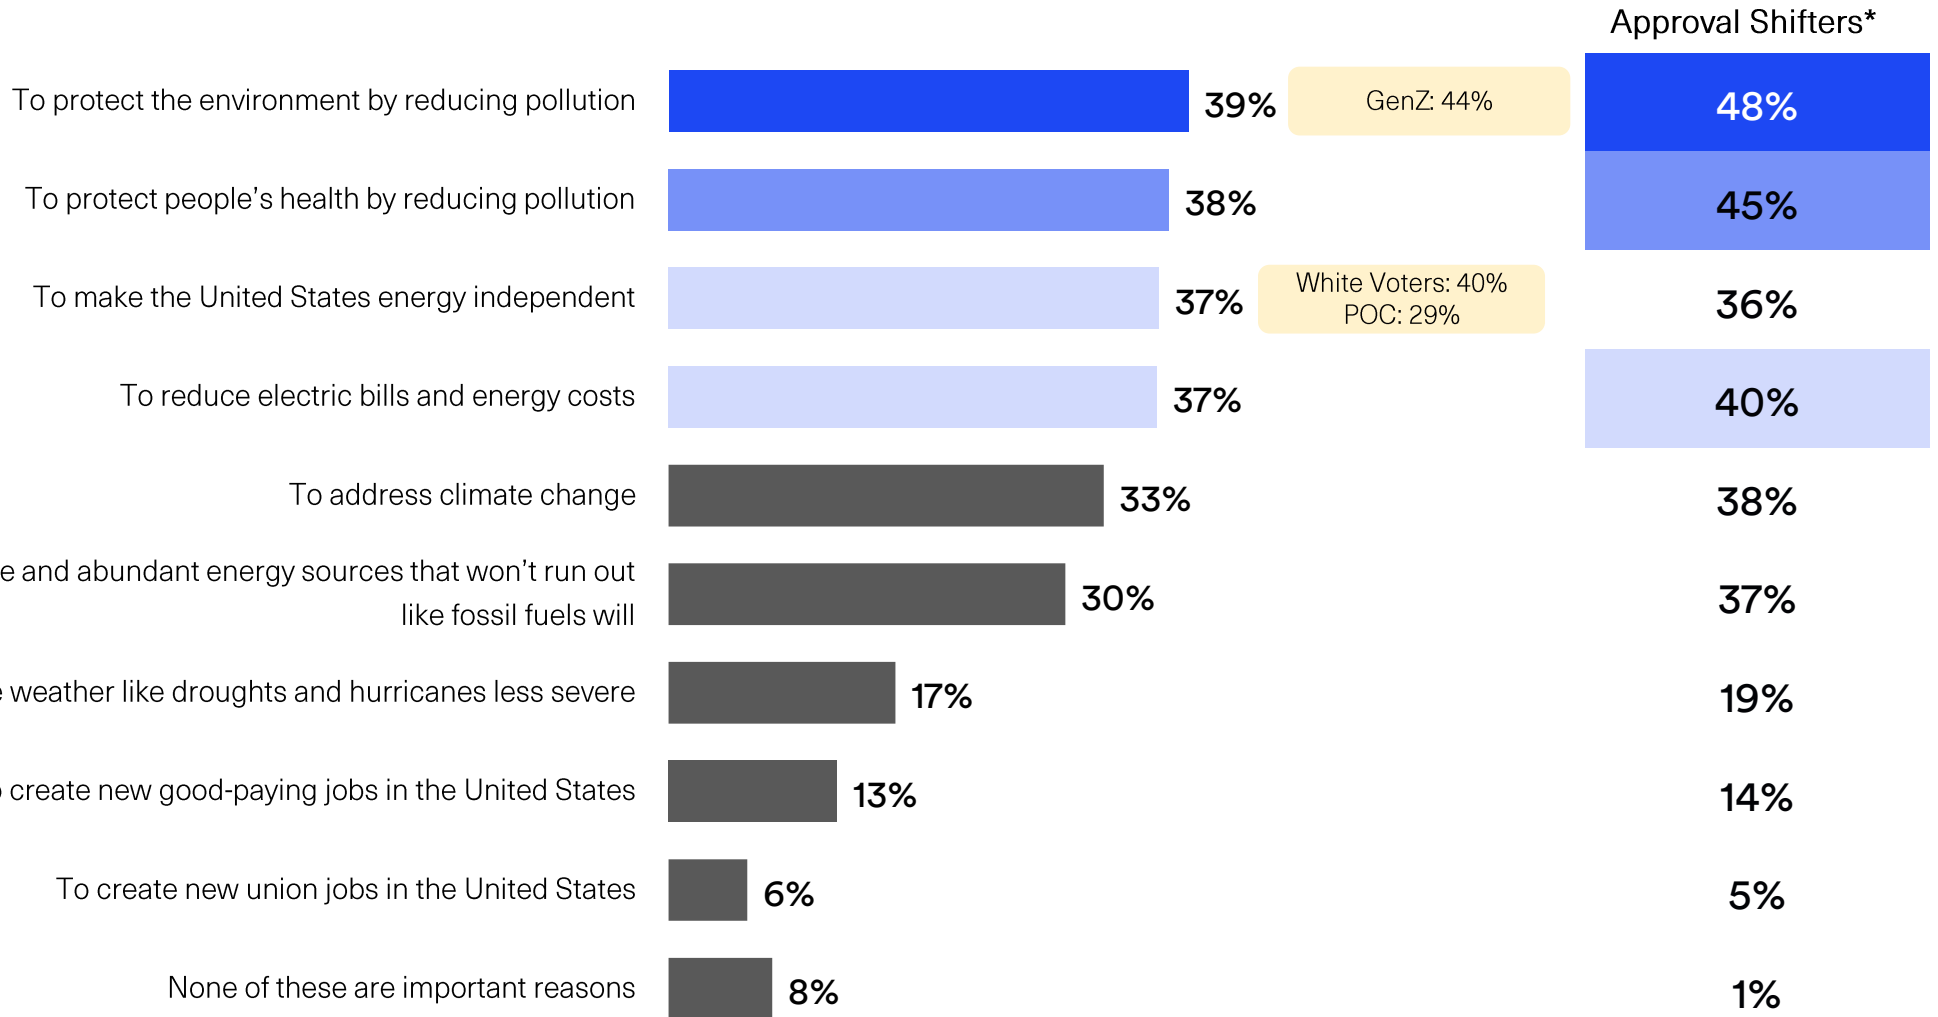

# Baseline Perspective

# Voters perceive **reducing pollution, making the U.S. energy independent, and reducing consumer costs** to be the most important reasons to increase clean energy use, with the health benefits being a top priority for Black voters

Q33. Which three of the following, if any, do you think are the most important reasons to increase our use of clean energy sources?

Reducing pollution to protect people's health is significantly more important among Black voters (47%) than among voters overall (38%)

\*Approval Shifters are defined as voters who do not approve of the Clean Energy Plan at the beginning of the survey but move towards approval by the end of the survey after learning information about the plan

# Only about a third of voters feel favorable toward President Biden and Congressional Democrats on climate change and clean energy; nearly half (43%) have soft or neutral feelings.

Q15. Now, please rate how you feel President Joe Biden and Democrats in Congress are doing on each of the following issue areas. Using a scale from 0 to 10, where "10" means that you feel VERY WARM and FAVORABLE towards them, "5" means that you feel neither warm or cold (neutral), and "0" means that you feel VERY COLD and UNFAVORABLE towards them.

## CLIMATE CHANGE & CLEAN ENERGY

State Governors had similar scores across all six states when it came to approval of their job on climate change.

Voters generally say President Biden does **too little to address climate change**, with younger generations, voters of color and Independents the most likely to say not enough is being done. We see later this is partially driven by a lack of knowledge about actions taken by the administration around climate change.

Q17. Do you think Joe Biden is doing too much, too little, or the right amount to address climate change?

Voters do not have a lot of information about Biden's climate accomplishments regardless of their party ID, leading to even GOP voters being split on whether he is doing too much or too little

	AZ	GA	MI	NV	PA	WI	Men	Women	White	Black	Latino	AAPI	POC	GenZ	Mill.	GenX	Silent/Boomer	DEM	IND	GOP
Too Much	23%	25%	18%	20%	23%	24%	26%	19%	25%	9%	16%	14%	12%	10%	15%	22%	31%	7%	19%	44%
The Right Amount	25%	26%	24%	28%	28%	26%	26%	26%	24%	37%	24%	24%	31%	17%	22%	27%	31%	42%	20%	12%
Too Little	52%	50%	58%	52%	49%	49%	48%	55%	51%	54%	60%	62%	56%	73%	63%	51%	37%	51%	62%	44%

# Voters are most concerned about **gasoline prices and utilities costs** when it comes to climate-related challenges; consumer costs are the most concerning issue in every state.

Q21. Now, please rate how concerned you are about each one of the following issues. Using a scale from 0 to 10, where “10” means that you feel very concerned, “5” means that you feel neither concerned or unconcerned, and “0” means that you are not concerned at all. You may use any number from 0 to 10, depending on how you feel

---

# Initial opinion on Biden and Congressional Democrats' Clean Energy Plan

# Voters are generally divided on approval for the federal Clean Energy Plan; 34% of voters do not have an opinion on the plan or have never heard of it. Young voters and Independents are especially unaware of the Plan.

Q31. President Biden and Democrats in Congress recently passed a new Clean Energy Plan. From what you know about it, do you approve or disapprove of this plan?

- Strongly Approve
- Somewhat Approve
- No Opinion
- Somewhat Disapprove
- Strongly Disapprove
- Never Heard Of

Among voters who say Biden is doing "too little" to address climate change, a significant portion (44%) have no opinion or have never heard of the Clean Energy Plan.

	AZ	GA	MI	NV	PA	WI	Men	Women	White	Black	Latino	AAPI	POC	GenZ	Mill.	GenX	Silent/Boomer	DEM	IND	GOP
Total Approve	38%	38%	31%	42%	39%	34%	40%	33%	33%	52%	44%	38%	48%	40%	37%	33%	37%	65%	23%	14%
Total Disapprove	30%	31%	27%	26%	32%	28%	34%	26%	33%	14%	26%	26%	19%	21%	23%	33%	35%	10%	28%	56%
No Opinion/ Never Heard	32%	31%	42%	32%	29%	38%	27%	41%	34%	33%	30%	36%	33%	39%	40%	34%	28%	25%	50%	30%
Net Approve	+8	+6	+4	+16	+7	+7	+6	+7	-1	+38	+19	+11	+29	+19	+14	+0	+1	+56	-5	-42

# 23% of voters say Biden does too little to address climate change AND are unfamiliar with the Clean Energy Plan; young voters, particularly young women, are most likely to be in this group

Q31/Q17. President Biden and Democrats in Congress recently passed a new Clean Energy Plan. From what you know about it, do you approve or disapprove of this plan?  
/ Do you think Joe Biden is doing too much, too little, or the right amount to address climate change?

## Groups that are MORE LIKELY than voters overall to say Biden is not doing enough on climate change and also not know about the Clean Energy Plan (23%)

38%	of 2020 Non-Voters are unfamiliar with plan and say Biden does too little
37%	of GenZ Women are unfamiliar with plan and say Biden does too little
36%	of Millennial Women are unfamiliar with plan and say Biden does too little
35%	of White GenZers are unfamiliar with plan and say Biden does too little
32%	of 18–35-year-olds are unfamiliar with plan and say Biden does too little
31%	of Michiganders are unfamiliar with plan and say Biden does too little
31%	of GenZers are unfamiliar with plan and say Biden does too little

# All four proof points on the Clean Energy Plan are popular with voters. Creating new good-paying jobs is especially popular with persuadables who shift toward approval by end of poll.

Q32. Below are four policies recently passed by Congress and signed into law by President Biden. Please rate how you feel toward each one.

■ Very Favorable (8-10)    ■ Somewhat Favorable (6-7)

Approval Shifters\*

Showing % Total Favorable

Upgrading the U.S. electrical grid so it is able to handle much greater use, save money, able to deliver more electricity from clean energy sources, and is more reliable during extreme weather

Silent/Boomers: 76%

**81%**

Creating new good-paying jobs and expanding job training in clean energy industries for a range of workers, from scientists and engineers to electricians and carpenters

Black: 73%  
AAPI: 72%

**83%**

Providing incentives to businesses and consumers that significantly reduce the cost of clean energy technologies that save them money and reduce pollution

**76%**

Expanding and speeding up the transition to clean energy sources and ensuring that clean energy technologies will be developed and manufactured in the United States

Black: 68%

**73%**

\*Approval Shifters are defined as voters who do not approve of the Clean Energy Plan at the beginning of the survey but move towards approval by the end of the survey after learning information about the plan

---

# Talking about the Clean Energy Plan

# Thinking about the impacts of the Clean Energy Plan generally, voters prioritize monetary savings that will impact their households; cutting pollution is also an important benefit for approval shifters.

Q39. Here are some specific impacts of these policies. Please rank the two or three that are the most important to you personally.

■ Ranked First Choice   ■ Ranked Second Choice   ■ Ranked Third Choice

Approval Shifters  
Showing % Total Ranked

It can save consumers tens of thousands of dollars for making their homes more energy efficient, and for many working families the improvements will be free

It could help save the average household \$1,000 per year in energy costs

It will help cut climate pollution by 40% by the end of the decade

It will help avoid up to 3,900 premature deaths and up to 100,000 asthma attacks by the end of the decade

46%

It's projected to create 1.5 million good-paying jobs by the end of the decade

45%

It will produce nearly a billion more solar panels and 120,000 more wind turbines to power communities

22%

With new tax credits, people can buy new electric vehicles for less than \$23,000

22%

Don't know/Refused

0%

# All the tested potential Clean Energy Plan outcomes across the states make most voters feel more positive toward clean energy, especially lower energy costs as well as improvements to the grid and creating jobs in-state.

Q40. In the next two years, states and the Biden administration will be implementing the policies that we've been discussing. Some things that you could see happen in [STATE] as part of this are listed below. Please rate how each one would affect your thinking about expanded use of clean energy.

- Much more positive about expanded clean energy
- Somewhat more positive about expanded clean energy

### Approval Shifters

Showing % Total More Positive

Lower energy costs in [STATE] because of improved energy efficiency and increased use of clean energy

Major commitments to improve the electricity grid in [STATE]

New good-paying jobs in clean energy industries in [STATE] for everyone from engineers and scientists to construction workers and electricians

Cities and towns will retrofit thousands of low-income homes in [STATE] to lower their energy costs and make them more comfortable.

Major worker training programs in [STATE], including for people who had worked in the fossil fuel industry or whose jobs have been outsourced in recent years

Cities, towns, schools, and churches in [STATE] for the first time can get a 30% rebate for installing renewable energy systems like solar panels.

# Proof of progress and delivery on the Clean Energy Plan at the national level inspires hope for individuals, especially Democrats, women, and people of color.

41. Here is some more information about the economic and job benefits of the Clean Energy Plan. Which of the following words or phrases best describes how you feel about this?

“In just the last eight months since the passage of this Clean Energy Plan, companies from across the country have already announced over [191 new clean energy projects](#) that will [deliver over \\$242 billion](#) into local economies and [create over 142,000 new jobs](#).”

■ Surprised ■ Hopeful ■ Satisfied ■ Skeptical ■ Don't care ■ Other

	AZ	GA	MI	NV	PA	WI	Men	Women	White	Black	Latino	AAPI	POC	GenZ	Mill.	GenX	Silent/Boomer	DEM	IND	GOP
Total Hopeful	42%	37%	44%	41%	44%	34%	37%	44%	41%	43%	38%	43%	42%	35%	43%	42%	41%	57%	34%	28%

# Voters who were more likely than voters overall to feel hopeful tend to be liberal, Black, and college-educated, while voters who felt skeptical tended to be conservative, white, and older

41. Here is some more information about the economic and job benefits of the Clean Energy Plan. Which of the following words or phrases best describes how you feel about this?

Groups that were MORE LIKELY than voters overall to say they felt HOPEFUL (41%)	
61%	of Black Voters Age 50+ felt hopeful
57%	of Self-Identified Democrats felt hopeful
56%	of Liberal Voters felt hopeful
53%	of College-Educated Black Voters felt hopeful
50%	of College-Educated Women felt hopeful
48%	of Voters with Post-Grad Degrees felt hopeful

Groups that were MORE LIKELY than voters overall to say they felt SKEPTICAL (31%)	
59%	of Very Conservative Voters felt skeptical
50%	of Self-Identified Republicans felt skeptical
42%	of White Voters Age 50+ felt skeptical
41%	of Men Age 50+ felt skeptical
39%	of Rural Voters felt skeptical
39%	of Silent Gen/Boomers felt skeptical

# Public Opinion Shift

# Isolated proof points and positive messaging increase approval for the Clean Energy Plan 21 points (a big shift that is rare to see in public opinion research.)

Q31/43. President Biden and Democrats in Congress recently passed a new Clean Energy Plan. From what you know about it, do you approve or disapprove of this plan? / Based on what you have seen and read in this survey, from what you know about it, do you approve or disapprove of the Clean Energy Plan that President Biden and Congress recently passed?

Strongly Approve    Somewhat Approve    No Opinion    Somewhat Disapprove    Strongly Disapprove    Never Heard Of

## INITIAL ASK

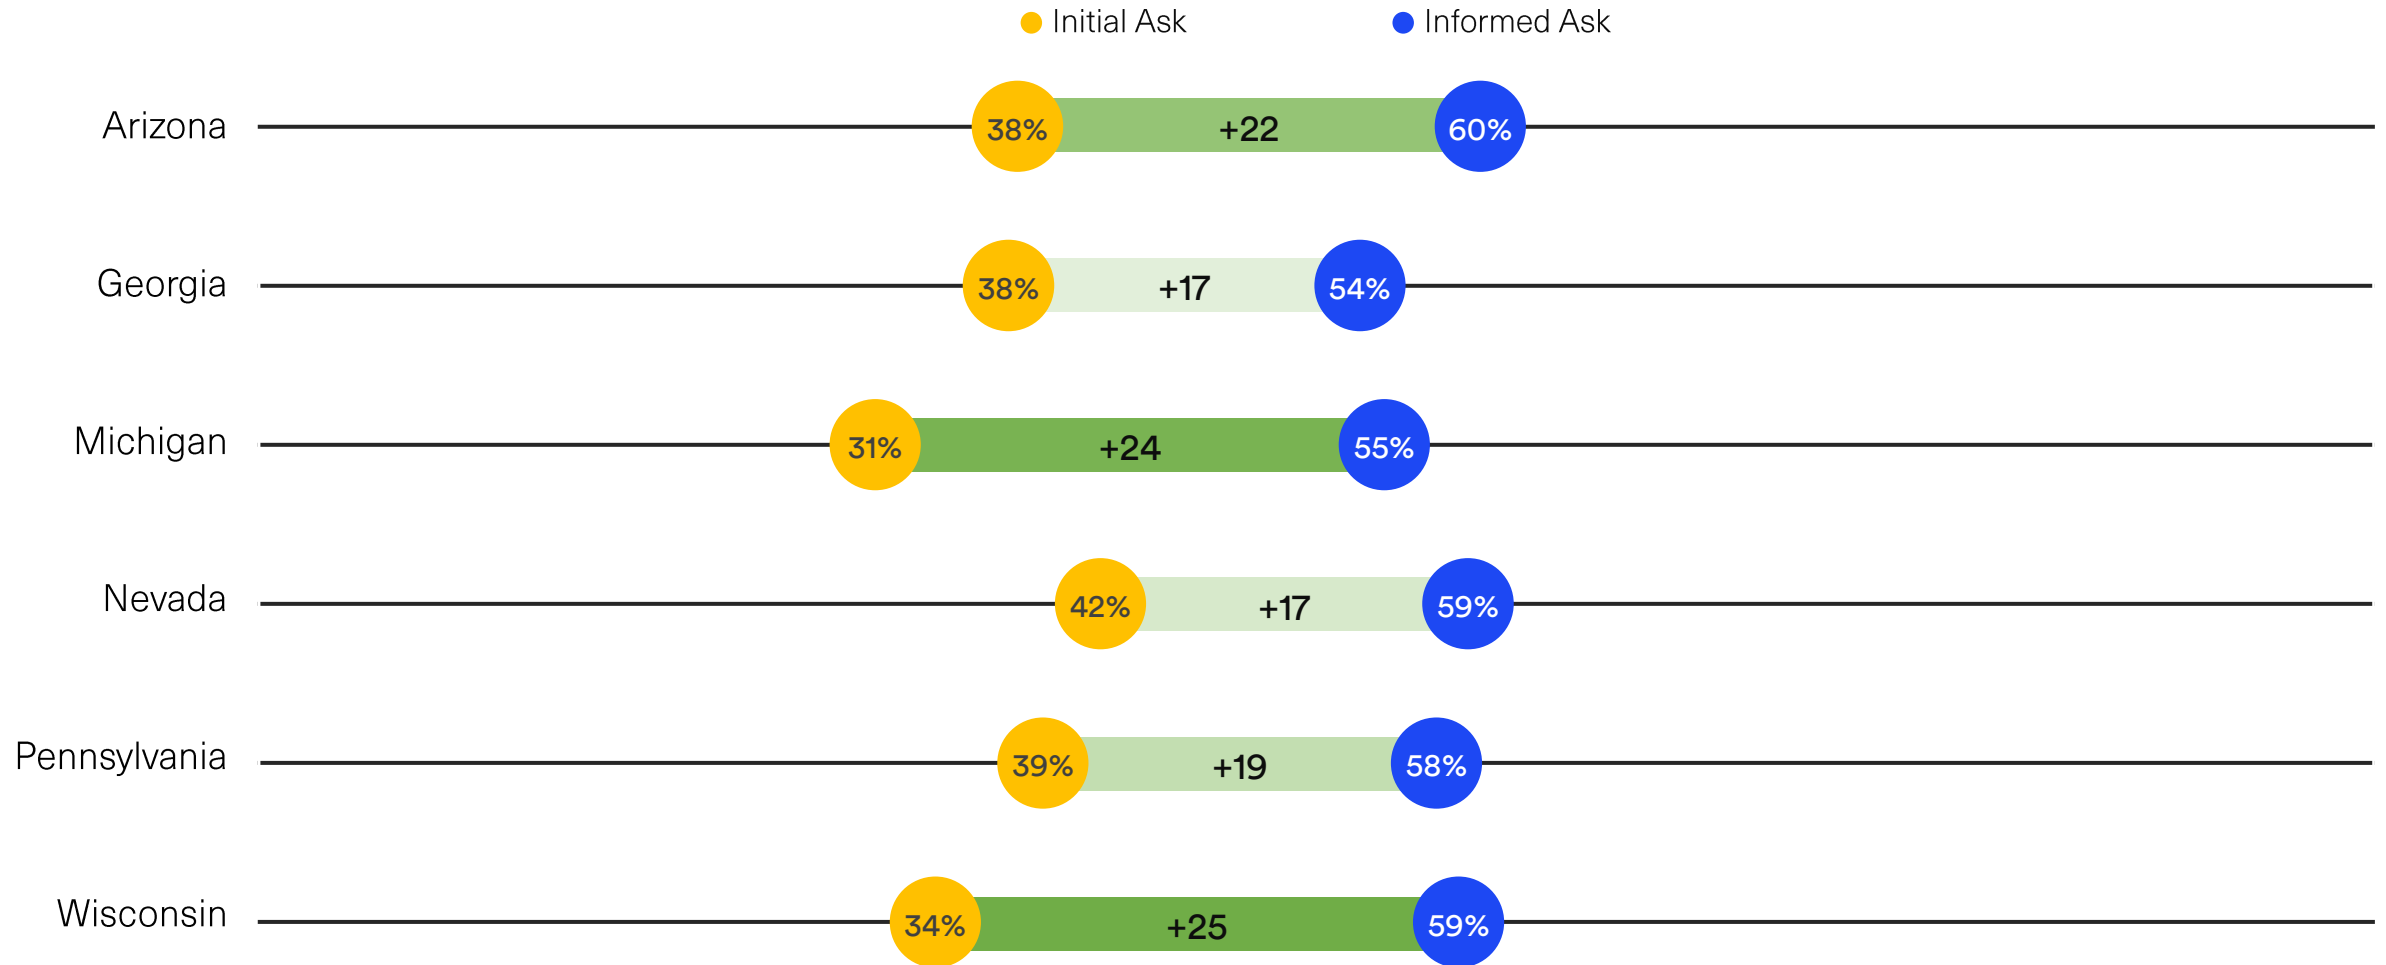

## INFORMED ASK

# All states saw double digit increases in support for the Clean Energy plan; states which saw the largest increases started off with lower levels of initial support

Q31/43. President Biden and Democrats in Congress recently passed a new Clean Energy Plan. From what you know about it, do you approve or disapprove of this plan? / Based on what you have seen and read in this survey, from what you know about it, do you approve or disapprove of the Clean Energy Plan that President Biden and Congress recently passed?

# Millennials, Independents and AAPI voters are most likely to move towards support of the plan, but all key voter groups move double digits towards support of the plan

Q31/43. President Biden and Democrats in Congress recently passed a new Clean Energy Plan. From what you know about it, do you approve or disapprove of this plan? / Based on what you have seen and read in this survey, from what you know about it, do you approve or disapprove of the Clean Energy Plan that President Biden and Congress recently passed?

# 25% of voters move towards approving of the Clean Energy Plan by the end of the poll after learning more about the plan and its impacts.

Q31/43. President Biden and Democrats in Congress recently passed a new Clean Energy Plan. From what you know about it, do you approve or disapprove of this plan? / Based on what you have seen and read in this survey, from what you know about it, do you approve or disapprove of the Clean Energy Plan that President Biden and Congress recently passed?

## Groups that were MORE LIKELY than voters overall to move towards approving of the plan

35%	of 2020 Non-Voters move towards approval
34%	of AAPI Voters move towards approval
34%	of GenZ Women move towards approval
33%	of Moms move towards approval
33%	of Millennial Women move towards approval
32%	of Self-ID Soft Democratic Voters move towards approval
30%	of Latina Voters move towards approval

# Demographic Profile of voters who Moved Towards Approving of Clean Energy Plan

## GENDER

## GENERATIONS

## RACE

## URBANICITY

# After educating voters on the policies and progress in the Clean Energy Plan, most voters said they feel more confident in the Biden Administration on clean energy, especially Democrats and Black voters.

Q43. President Biden and his administration have led the passage of the clean energy and climate policies we have been discussing, and he is leading the effort to promote investments in clean energy manufacturing and good-paying jobs. Does this give you...?

■ Much More Confident   
 ■ Somewhat More Confident   
 ■ Doesn't Affect Opinion  
■ Somewhat Less Confident   
 ■ Much Less Confident

## Total More Confident (53%) *Overindex on Being More Confident*

80%	of Liberals
79%	of Self-ID Democrats
77%	of Citizens Who Voted For Biden in 2020
77%	of Black Voters Age 50+
77%	of Black College Educated Voters
68%	of Black Voters
65%	of Voters of Color

# Other Issues

# A majority of voters are not familiar with Project Willow.

Q46. How familiar are you with the oil drilling project called "Project Willow" in Alaska?

- Very Familiar
- Somewhat Familiar
- Not that familiar
- Not at all familiar

	AZ	GA	MI	NV	PA	WI	White	Black	Latino	AAPI	POC	GenZ	Mill.	GenX	Silent/ Boom.
Total Familiar	32%	33%	27%	34%	30%	27%	29%	31%	36%	27%	33%	43%	31%	26%	27%
Total Unfamiliar	68%	67%	73%	66%	70%	73%	71%	69%	64%	73%	67%	57%	69%	74%	73%

# Voters do not have strong opinions for or against Project Willow, driven by low levels of familiarity.

47. Do you approve or disapprove of President Biden approving one of the largest oil developments on federal land in Alaska, also known as Project Willow?

■ Strongly Approve    
 ■ Somewhat Approve    
 ■ No Opinion    
 ■ Somewhat Disapprove    
 ■ Strongly Disapprove

	AZ	GA	MI	NV	PA	WI	White	Black	Latino	AAPI	POC	GenZ	Millennial	GenX	Silent/Boomer

# A majority of voters agree that utility companies should be held accountable, clean energy investments should include labor standards, and ESG factors should be used in financial investments.

49. Please rate how important you consider each of the following potential measures to be. Using a scale from 0 to 10, where “10” means that it is very important, “5” means that it is neither important or unimportant, and “0” means that it is not important at all. You may use any number from 0 to 10, depending on how you feel.

■ Very Important (8-10)  
 ■ Somewhat Important (6-7)  
 ■ Neutral (5)  
 ■ Somewhat Unimportant (3-4)  
 ■ Not Important At All (0-2)

**Mean importance**  
Showing Mean importance on 0-10 Scale

Utility companies should be held accountable when there are major outages or disruption to connection for customers

**7.3**

Support for labor standards and union jobs is high even in GA (68% total important) and AZ (71% total important) despite those states being less union-friendly

Major clean energy investments should require strong labor standards that are designed to create local jobs right here in STATE that pay family-supporting wages and benefits, include strong worker protections, high-quality training, and a voice on the job.

**7.1**

Financial managers should be allowed to consider environmental factors when making investment decisions for public retirement funds

**6.2**

# Snapshot of Young Voters (18-35) Across States

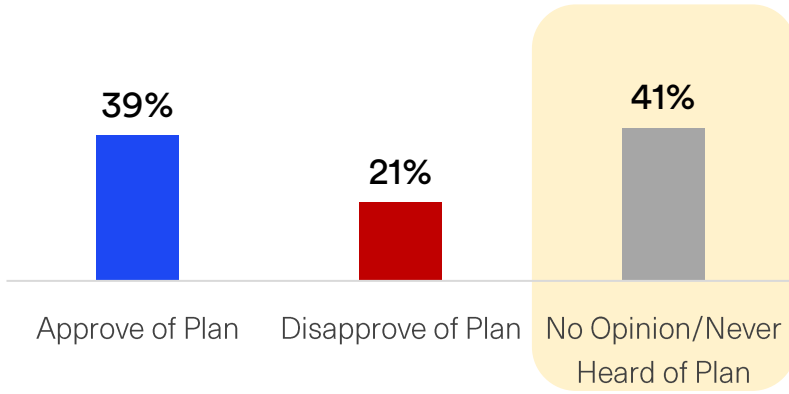

Young Voters overwhelmingly say President Biden is not doing enough to address climate change

■ Too Much ■ The Right Amount ■ Too Little

This sentiment is at least partially driven by unfamiliarity with the Clean Energy Plan

Young Voters' energy and environmental concerns are largely economic and health-related

### Top 5 Energy and Environment Concerns

Gasoline Prices	77%
Cost of electricity and other utility bills	77%
The availability of good-paying jobs	75%
Clean drinking water	75%
The impact of pollution on our health	75%

Job creation is the most effective proof point of the Clean Energy Plan among Young Voters, while upgrading the grid is most important to voters overall

### Top 3 Proof Points for Clean Energy Plan Among Young Voters

(Showing % Favorable)

Creating new good-paying jobs and expanding job training in clean energy industries for a range of workers, from scientists and engineers to electricians and carpenters.	68%
Upgrading the U.S. electrical grid so it is able to handle much greater use, save money, able to deliver more electricity from clean energy sources, and is more reliable during extreme weather.	64%
Expanding and speeding up the transition to clean energy sources and ensuring that clean energy technologies will be developed and manufactured in the United States.	60%

Young Voters jump in approval 20 points after learning more information about the Clean Energy Plan

# Snapshot of Black Voters Across States

A majority of Black voters say President Biden is not doing enough to address climate change

■ Too Much ■ The Right Amount ■ Too Little

This sentiment is at least partially driven by unfamiliarity with the Clean Energy Plan

Clean drinking water is an issue with strong salience for Black voters

### Top 5 Energy and Environment Concerns

Clean drinking water	68%
Cost of electricity and other utility bills	60%
Gasoline Prices	58%
The availability of good-paying jobs	58%
The impact of pollution on our health	56%

Job creation is the most effective proof point of the Clean Energy Plan among Black voters, while upgrading the grid is most important to voters overall

### Top 3 Proof Points for Clean Energy Plan Among Black Voters

(Showing % Favorable)

Creating new good-paying jobs and expanding job training in clean energy industries for a range of workers, from scientists and engineers to electricians and carpenters.	73%
Upgrading the U.S. electrical grid so it is able to handle much greater use, save money, able to deliver more electricity from clean energy sources, and is more reliable during extreme weather.	71%
Providing incentives to businesses and consumers that significantly reduce the cost of clean energy technologies that save them money and reduce pollution	69%

Black voters jump in approval 19 points after learning more information about the Clean Energy Plan

# Snapshot of Latino Voters Across States

A significant majority of Latino voters say President Biden is not doing enough to address climate change

■ Too Much ■ The Right Amount ■ Too Little

This sentiment is at least partially driven by unfamiliarity with the Clean Energy Plan

Health and economic concerns are top of mind for Latino voters

### Top 5 Energy and Environment Concerns

Clean drinking water	77%
Gasoline prices	77%
Cost of electricity and other utility bills	76%
The impact of pollution on our health	74%
The availability of good-paying jobs	72%

Job creation is the most effective proof point of the Clean Energy Plan among Latino voters, while upgrading the grid is most important to voters overall

### Top 3 Proof Points for Clean Energy Plan Among Latino Voters

(Showing % Favorable)

Creating new good-paying jobs and expanding job training in clean energy industries for a range of workers, from scientists and engineers to electricians and carpenters.	67%
Upgrading the U.S. electrical grid so it is able to handle much greater use, save money, able to deliver more electricity from clean energy sources, and is more reliable during extreme weather.	65%
Providing incentives to businesses and consumers that significantly reduce the cost of clean energy technologies that save them money and reduce pollution	63%

Latino voters jump in approval 18 points after learning more information about the Clean Energy Plan

# Snapshot of AAPI Voters Across States

AAPI voters are the racial group most likely to say President Biden isn't doing enough on climate change

■ Too Much ■ The Right Amount ■ Too Little

This sentiment is at least partially driven by unfamiliarity with the Clean Energy Plan

Economic concerns, especially affordable utilities and energy, are most top-of-mind for AAPI voters

### Top 5 Energy and Environment Concerns

Cost of electricity and other utility bills	81%
Lack of choice for affordable electricity	81%
The availability of good-paying jobs	80%
The impact of pollution on our health	78%
Clean drinking water	75%

Updating the electrical grid and creating new jobs are both highly effective proof-points among AAPI voters

### Top 3 Proof Points for Clean Energy Plan Among AAPI Voters (Showing % Favorable)

Upgrading the U.S. electrical grid so it is able to handle much greater use, save money, able to deliver more electricity from clean energy sources, and is more reliable during extreme weather.

Creating new good-paying jobs and expanding job training in clean energy industries for a range of workers, from scientists and engineers to electricians and carpenters.

Providing incentives to businesses and consumers that significantly reduce the cost of clean energy technologies that save them money and reduce pollution

AAPI voters saw the largest shift (+30) of any racial group towards supporting the Clean Energy Plan after learning more information about it

# Snapshot of Rural Voters Across States

Half of rural voters say President Biden is not doing enough to address climate change

■ Too Much ■ The Right Amount ■ Too Little

A slight plurality of rural voters disapprove of the Clean Energy Plan, while one in three are unfamiliar with it

Economic concerns, including American energy independence, are top of mind for rural voters

### Top 5 Energy and Environment Concerns

Gasoline prices	84%
Cost of electricity and other utility bills	84%
America's dependence on foreign oil	76%
Clean drinking water	76%
The availability of good-paying jobs	72%

Updating the electrical grid and creating new jobs are both effective proof-points among rural voters

### Top 3 Proof Points for Clean Energy Plan Among Rural Voters

(Showing % Favorable)

Upgrading the U.S. electrical grid so it is able to handle much greater use, save money, able to deliver more electricity from clean energy sources, and is more reliable during extreme weather.

Creating **new good-paying jobs and expanding job training** in clean energy industries for a range of workers, from scientists and engineers to electricians and carpenters.

Providing incentives to businesses and consumers that **significantly reduce the cost of clean energy technologies that save them money** and reduce pollution

Rural voters jump in approval 20 points after learning more information about the Clean Energy Plan

# Summary of Findings

## 1

Voters who shift to approving of the Clean Energy Plan are already largely supportive of Democrats in Congress and the Biden Administration – they just need more information.

The groups most likely to move toward approval for the Clean Energy Plan once given information are those who lack information at the beginning, including 2020 non-voters and young voters. We move many of those uninformed voters to approval in our poll by simply educating them on progress. Voters overall feel favorable toward clean energy, the policies in the Clean Energy Plan, and the potential impacts of the Plan in their states after we give them information.

## 2

Voters feel most favorable toward elements of the Clean Energy Plan centered on economics. People of color and young voters are also especially concerned with air pollution.

Connect the progress of the Clean Energy Plan with creating new, good-paying jobs in the energy sector. Localize the progress with wins in their own communities/state and define the clear relationship between clean energy and economic opportunity. Connect pollution and public health as the problem and the Clean Energy Plan as the solution.

## 3

Educating voters on the Clean Energy Plan increases confidence in the Biden Administration to promote investments in clean energy.

Voters are generally unaware of the Clean Energy Plan and the progress already made. We can build trust between voters and Democrats in Congress and the Biden Administration by pointing to wins both nationally and in their own communities (i.e., more jobs, clean energy projects, and investments.) Highlight what we have already accomplished as proof that we can do more to make these goals a reality.
